EXPERIENCE

Javascript Developer Intern Sep. 2020 – Dec. 2020
Nestor Analytics Pvt. Ltd. *Hyderabad, India*

- Worked using HTML, CSS, javascript, Jquery and many more javascript libraries and worked on over 40+ projects during the internship.
- Reduced the application size considerably by using SVG and canvas elements in place of images.
- Learned ES6 language and many other web developer tools for completing my projects during the internship.

PROJECTS

Job Finder | *HTML, CSS, Javascript, Jquery, Bootstrap, RestAPI*

- It is a responsive website which shows real time job posting.
- You can custom search jobs by choosing particular category or from company name.
- Worked with a API built by Remotive.
- Link of the website: https://shubhamjain1922.github.io/jobfinder/

Interactive Map | *HTML, CSS, Javascript, Jquery*

- It is an interactive map of our campus which makes it easier to locate buildings in the map by clicking on its name from table and vice versa.
- Worked with SVG elements to make individual buildings.
- Link of the website: https://shubhamjain1922.github.io/interactive-map/

Sanskrit Tutor | *HTML, CSS, Javascript, Jquery, RestAPI, Bootstrap*

- It is a responsive E-tutor for teaching sanskrit language.It has multiple tools like dictionary, translator, quiz and pronunciation.
- It was a group project for Productathon which is a hackathon hosted by IIT Roorkee and my team secured 9th position out of 300+ teams.
- My role was to develop multiple pages using front-end technologies and integrate all the pages together.
